Top 25 Salaries

Name	Agency	Title	Salary
Mack Brown	The University of Texas at Austin	Head Coach	\$5,266,667
Richard D Barnes	The University of Texas at Austin	Head Coach	\$2,400,000
Rodney James Rohrich	The University of Texas Southwestern Medical Center at Dallas	PROFESSOR & CHAIRMAN	\$1,750,000
Ronald A DePinho	The University of Texas MD Anderson Cancer Center	President	\$1,404,000

Agency	Title	Salary
<u>The University of Texas at Austin</u>	<u>Head Coach</u>	\$5,26
<u>The University of Texas at Austin</u>	<u>Head Coach</u>	\$2,40
<u>The University of Texas Southwestern Medical Center at Dallas</u>	<u>PROFESSOR & CHAIRMAN</u>	\$1,75
<u>The University of Texas MD Anderson Cancer Center</u>	<u>President</u>	\$1,40

Databases comprise 75% of overall traffic.

A man with short, graying hair and a blue button-down shirt is speaking into a microphone at a podium. The background is blurred, showing an indoor setting with warm lighting. A logo is visible on the podium.

Data-driven
journalism is the
future

How about data sources?

“If stage one of data journalism was 'find and scrape data', then stage two was 'ask government agencies to release data' in easy to use formats. Stage three is going to be 'make your own data'.”

Javaun Moradi, Product Manager, NPR

The Data Journalism Handbook

SIGN UP TO GET UPDATES

The Data Journalism Handbook is a free, open source reference book for anyone interested in the emerging field of data journalism.

It was born at a 48 hour workshop at **MozFest 2011** in London. It subsequently spilled over into an international, collaborative effort involving dozens of data journalism's leading advocates and best practitioners - including from the Australian Broadcasting Corporation, the BBC, the Chicago Tribune, Deutsche Welle, the Guardian, the Financial Times, Helsingin Sanomat, La Nacion, the New York Times, ProPublica, the Washington Post, the Texas Tribune, Verdens Gang, Wales Online, Zeit Online and many others.

RAHUL BHARGAVA

Research Specialist

Rahul Bhargava creates playful websites, explanatory data visualizations, award-winning educational museum exhibits, and interactive robots. He has led workshops on a number of topics across three continents, leading to a special interest in finding ways to build technologies and experiences that meet the disparate needs of varying communities and cultures. Rahul is currently working on a variety of technologies to support community

DATA THERAPY FOR DATA-DRIVEN JOURNALISM

Submitted by [rahulb](#) on June 1, 2012 - 5:05pm

Earlier this week we hosted a [Hacks/Hackers meetup](#) where I offered some [Data Therapy](#) to attendees. It was a great chance for me to target my efforts to encourage more creative data presentation at a particular audience - journalists and data scientists. We had a engaging workshop with about 100 people in attendance - lots of insightful questions and conversations about how to tell stories better with data.
