

Implementation of PIDs in Czechia

Results of cost-benefit analysis

Hana Heringová 

National Centre for Persistent Identifiers

Webinar for NTK key stakeholder organizations

June 12, 2025

Co-funded by
the European Union

- Created in 2023 at the National Library of Technology (NTK)
- Dedicated personnel and funds to support implementation of PIDs in Czech research performing and research funding organizations
- Centre's services:
 - **National ISSN Centre**
 - **National ORCID Centre** / national ORCID consortium
 - **National DOI Centre** / national DataCite consortium
 - Consultations for other PIDs (ROR, RAiD, IGSN, ePIC ad.)
- Finances from the CARDS* project for 2023 – 2028 covering full member fees for both consortia

*CARDS (Czech Academic and Research Discovery Services) - Individual system project no CZ.02.01.01/00/22_004/0004342, Operational Programme Jan Amos Komenský

What are the benefits of implementing PIDs in Czech R&D?

What impact will the funds spent on centralized support for PID implementation have?

Cost-benefit analysis

Cost-benefit analyses from abroad

By MoreBrains Cooperative Ltd. (UK)

United Kingdom (2021, 2022)

savings **55 000 man-days / year** (**45 mil. GBP** in 5 years)

(<https://doi.org/10.5281/zenodo.7356219>)

Australia (2022)

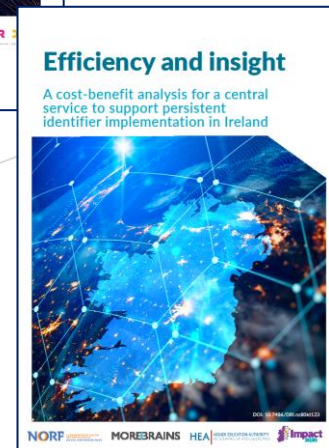

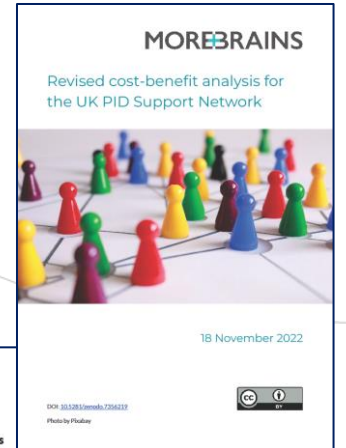

savings **38 000 man-days / year** (**24 mil. AUD** per years)

(<https://doi.org/10.5281/zenodo.7100578>)

Ireland (2024)

savings **4 000 man-days / year** (**1,6 mil. EUR** in 5 years)
