What is DANS?

Institute of Dutch
Academy and
Research Funding
Organisation
(KNAW & NWO)
since 2005

Mission: promote
and provide
permanent access
to digital research
information

First predecessor
dates back to
1964 (Steinmetz
Foundation),
Historical Data
Archive 1989

DANS

PUBLICATIONS AND DATA

Driven by data

Data Archiving in the Humanities and Social Sciences

Data collection and data processing

→ awareness of the value of preserving data for re-use:

- for validating the results of earlier research
- for comparative analysis
- for secondary analysis: answering new research questions with existing data

Emergence of data archives:

The federated data infrastructure: a collaborative framework

EASY: Electronic Archiving System for self-deposit

The Data Seal of Approval Guidelines

1. The data producer deposits the research data in a data repository with sufficient information for others to assess the scientific and scholarly quality of the research data.
2. The data producer provides the research data in formats recommended by the data repository
3. The data producer has an explicit mission in the area of digital archiving and promulgates it
4. The data repository uses due diligence to ensure compliance with legal regulations and contracts including, when applicable, regulations governing the protection of personal subjects.
5. The data repository uses documented processes and procedures for managing data storage
6. The data repository has a plan for long-term preservation of its digital objects
7. Archiving takes place according to standard workflows across the data life cycle
8. The data repository assumes responsibility for the data producers for access and availability of the digital objects
9. The data repository ensures the integrity of the digital objects and the metadata
10. The data infrastructure explicitly supports the tasks and functions described in internationally accepted archival standards like OAIS
11. The data consumer complies with access regulations set by the data repository
12. The data consumer respects the applicable licenses of the data repository regarding the use of the research data
13. The data consumer respects the applicable laws of the country where the data is stored
14. The data consumer respects the applicable regulations of the data repository regarding the use of the research data
15. The data consumer respects the applicable laws of the country where the data is stored
16. The data consumer respects the applicable licenses of the data repository regarding the use of the research data

Leen Breure: typology of 80 types of Enhanced Publications - <http://xposre.nl/>

Gallery EP Features 3

Summary Points

- Heterogeneity is a common characteristic of enhanced publications.
- In malaria, heterogeneity is concentrated in a small part of the document.
- In malaria, heterogeneity is substantially increased at a small place.

Certification Standards: Data Seal of Approval (DSA)

- DANS initiative
- International Board
- 16 guidelines
- Self assessment
- Transparency
- 36 seals awarded

Data producers are responsible for the quality of research data, repositories for storage and long-term access, and users for correct use of data

The screenshot shows the homepage of the Data Seal of Approval website. At the top, there is a navigation bar with links for Home, Assessment, Community, News & Events, and a Tool Log In button. On the left, a red wax seal icon labeled "Data Seal of Approval" is displayed. The main content area features a large image of a document titled "Towards sustainable and trusted data repositories". Overlaid on this image is a white box containing text about the 16 guidelines for data repository certification. Below the image, there is a section titled "News & Events" with links to a certification webinar and news about the seal's collaboration with World Data System.
