# Research data

“Factual records (numerical scores, textual records, images and sounds) used as primary sources for scientific research, and that are commonly accepted in the scientific community as necessary to validate research findings” (OECD)

Archived data (485)  
Audiovisual data (415)  
Configuration data (59)  
Databases (418)  
Images (1093)  
Networkbased data (126)  
Plain text (1020)  
Raw data (969)  
Scientific and statistical data formats (1373)  
Software applications (388)  
Source code (120)  
Standard office documents (1305)  
Structured graphics (791)  
Structured text (675)  
other (775)

# Research data management

[biblio.uottawa.ca](http://biblio.uottawa.ca)

# Hot and cold data

*hot*  
create,  
process,  
analyze

*cold*  
preservation,  
publishing

metadata (standards: DataCite etc.), identifiers (DOI etc.), link to paper

# Why publish data?

- research policy (institution, country, EU)
- funding agencies (including EC/H2020 program)
- academic journals

The screenshot shows the Zenodo website interface. At the top, there is a blue navigation bar with the 'zenodo' logo, a search bar, and links for 'Upload' and 'Communities'. On the right side of the bar are 'Log in' and 'Sign up' buttons. Below the navigation bar, the main content area shows search results. On the left, there are two filter panels: 'Access Right' with options for 'Open (4573)', 'Closed (240)', 'Restricted (15)', and 'Embargoed (4)'; and 'File Type' with options for 'Pdf (2377)', 'Zip (1586)', 'Xml (152)', 'Gz (116)', 'Jpg (109)', and 'Pptx (76)'. The main results area shows 'Found 4832 results.' and a pagination bar with numbers 1 through 9. The first result is titled 'Analysis of the Physical Behavior of Library Users in Reading Rooms through GIS: A Case Study of the Central Library of Tehran University' by R. Pourmaghi, dated April 3, 2015, and marked as 'Open Access'. The second result is titled 'Beyond tables and chairs: The Library as facilitating platform' by Lauenzen, Christian, dated April 20, 2018, and also marked as 'Open Access'. Each result has a 'View' button next to it.

# Data papers

“A data paper is a searchable metadata document, describing a particular dataset or a group of datasets, published in the form of a peer-reviewed article in a scholarly journal”

(Global Biodiversity Information Facility)

# Where and why

## Where

- Repository
- Academic journal
- **Data journal**

## Why

- To improve findability of data
  - cf. FAIR principles to increase machine readability of published datasets
- To increase impact

# Format

## Content

- Standard structure
- Description of dataset
- Link to dataset
- Short paper
  
- But a large diversity of formats

## Link with data repository

- Metadata (export to data paper template)
- Enrichment
  - including elements from data management plan
- Importance of standards
  - <http://www.dcc.ac.uk/resources/metadata-standards/list>

Mandatory	Recommended	Optional
Identifier	Subject	Language
Creator	Contributor	Alternate ID
Title	Date	Size
Publisher	Resource Type	Format
Publication year	Related identifier	Version
	Description	Rights
	GeoLocation	

# Data journals

## Including data papers

- BMC Research Notes
- F1000 Research
- GigaScience (OUP)
- PLoS One
- Frontiers in Sociology

## Exclusively data papers

- Data in Brief (Elsevier)
- Scientific Data (Nature)
- Journal of Open Archeology Data (Ubiquity)
- Genomics (Elsevier)

<https://www.fosteropenscience.eu/foster-taxonomy/open-data-journals>

# Thank you !
