Project Output
210 mm

- Functional pilot application
- Technology and methodology tested
- Standards and Recommendations
- Publication
- Web pages
- Seminars

Overview of 2008

210 mm

- Repository HW
- SW specification
- Typology of Documents
- Metadata format
- Identifier definition
- Project Web pages
- Seminar on Providing Access to Grey Literature

210 mm

Metadata

- Beta version 0.2 of NRGL metadata format

- Abstraction representation of metadata format in XML form

- Conversion between NRGL metadata format and MARC format

Solution in 2009

210 mm

Legal expertise

- Focused on grey literature in the Czech Republic
  - Producers of dates
  - Database administrators
- Especially dissertation theses
- Examples of license agreements
- Recommendation for universities, how to conclude license agreements with students

Solution in 2009

TOOLBOX

Seminar to access of grey literature 2008

The seminar on making grey literature accessible is organised once a year from 2008. The seminar is held with the aim not only to provide the participants with information about the grey literature in the Czech Republic as well as abroad, but also about related topics dealing with this issue. At this seminar a presentation on this project was given as well.

Previous seminars:

1st year of the seminar held on 8 October 2008 at VUT in Brno

On-line proceedings

2nd year of the seminar will be held on 22 October 2009 at VUT in Brno

- Registration form
- The Invitation card and further information
- List of registered participants
- Map with description, how to get to seminar.

The seminar will be supported during the years 2008 - 2011 by the Ministry of Culture within the project „Digital Library for Grey Literature – functional model and pilot implementation.

                               Access to Grey Literature

Solution in 2009

210 mm
Possibilities of collaboration by data producers

- Joining local database by ESP FAST
- Harvesting local database into CDS INVENIO
- Using CDS INVENIO as local database
- Entering records and fulltexts directly into CDS INVENIO

Collaboration in the Czech Republic

210 mm

- Start with organization, which agreed in questionnaire
  - Until end of 2009 with Institutions of the Academy of Sciences
  - Beginning of 2010 with Czech Universities
- Continuously other organization and database administrators
- nusl@techlib.cz

Foreign collaboration

210 mm

- OpenSIGLE project – Feasibility study for the creation of a cohesive pan-European e-infrastructure for digital grey literature repositories
  - GreyNet, INIST, CABI, NTK, University of Lille
- Join DRIVER - Digital Repository Infrastructure Vision for European Research

Next year

- Cooperating with data producers
- Testing technology and methodology
- Finalizing functional pilot application
- Considering eligible trusty repository
- Publication of Standards and Recommendations
- Actualizing of Web pages
- Holding the third year of a seminar

Next seminar and GL12

210 mm

- 3rd Seminar on Providing Access to Grey Literature – December 8, 2010

- Twelfth International Conference on Grey Literature - December 6 – 7, 2010

- Held in the National Technical Library in Prague in the Czech Republic
